

A WHOLE NEW SPORT

QUADMAX SPORT

Meet the next-generation Dunlop Quadmax Sport, high-performance radials purpose-built to launch racers to the front of the pack. Having introduced premium radial tires to the ATV market, Dunlop now gives racers all the benefits of radial construction—superior contact patch, compliant ride for less fatigue and neck pain. New carcass construction, rubber compound and

tread pattern produce blister-bombing traction, brackets hook up exiting corners, unequalled corner-carving traits, plus superior steering response and feel. Check out the Dunlop

Quadmax Sport and enjoy a whole new sport—collecting checkered flags.

For more Dunlop ATV tire information go to dunloptires.com or call (800) 846-4378. ©2007 Dunlop Tire.

DUNLOP
Radial tires. Ready to race.
